CONTENTS

Alan J. Rowe **Paul R. Watkins**	1	Beyond Expert Systems—Reasoning, Judgment, and Wisdom
Peter Smith **Eric Fletcher** **Michael Thorne** **William Walker** **Kevin Maughan** **Massoud Hajsadr**	11	The Use of Expert Systems for Decision Support in Manufacturing
Gunnar Hartvigsen	19	Limitations of Knowledge-Based Systems for Financial Analysis in Banking
Tae Young Chung **Jae Kyeong Kim** **Soung Hie Kim**	33	Building an Influence Diagram in a Knowledge-Based Decision System
John R. Barrett **Don D. Jones** **Thomas L. Thompson**	45	Knowledge Systems Development in U.S. Agriculture
Norman D. Clarke **Mary D. McLeish** **Tony J. Vyn** **James A. Stone**	53	Using Certainty Factors and Possibility Theory Methods in a Tillage Selection Expert System
M. Kantardžić **M. Jeftović** **A. Filipović** **H. Glavić** **D. Gajić** **N. Miličić**	63	CAD in Technical Security: A Knowledge-Based Approach
Suk I. Yoo **Il Kon Kim**	69	DIAS1: An Expert System for Diagnosing Automobiles With Electronic Control Units
Clay Carr **H. Joel Jeffrey** **Anthony O. Putman**	79	Knowledge-Based Systems and Intrinsic Practices
Patrick J. Lyons	87	Designing Knowledge-Based Systems for Incremental Development
S. Arunkumar **N. Janakiram**	99	ESP: Knowledge-Based Expert Strategic Planner
Robert A. Wolfe	117	A Rule-Based Calibration Method for Models With Multiple Rank-Ordered Choices
K. C. Reddy **P. G. Reddy** **B. E. Prasad** **Ch. S. Rao**	129	XLAR—Cognitive Architecture for Intelligent Action

Jahau Lewis Chen **Hong-Sen Yan** **Ge-Yan Shine**	141	An Expert System For Machine Screws Selection in Engineering Design
Alessandro Micarelli **Fabio Mungo** **Francesco S. Nucci** **Luigia Aiello**	147	Reasoning With Worlds and Truth Maintenance in an Intelligent Tutoring System
David Kopcso **Leo Pipino** **William Rybolt**	157	Classifying the Uncertainty Arithmetic of Individuals Using Competitive Learning Neural Networks

Special Section:
Applied Artificial Intelligence/Expert Systems Programs in Universities

Daniel E. O'Leary **Paul R. Watkins**	175	Guest Editors' Note
Paul R. Watkins **Daniel E. O'Leary**	177	The Advanced Information Systems Program (AISP) at the University of Southern California
W. D. Potter **D. E. Nute** **M. A. Covington**	185	The Master of Science in Artificial Intelligence Program at the University of Georgia
Vijay K. Vaishnavi **Gary C. Buchanan**	195	Expert Systems Track in the Georgia State Graduate Program in Computer Information Systems: A Balanced Approach
Michael Goul	203	Artificial Intelligence Technology Transfer in Computer Information Systems: The Arizona State University Perspective
Rayman D. Meservy **Eric L. Denna** **James V. Hansen**	213	Application of Artificial Intelligence to Accounting, Tax, and Audit Services: Research at Brigham Young University
Michael L. Behrens **Paul John Steinbart**	219	Integrating Expert Systems and Artificial Intelligence in Accounting: A Description of the Academic Program at Memphis State University
John P. Coyne	225	The Master of Science Concentration in Applied Artificial Intelligence and Expert Systems at George Washington University

General Articles

Avelino J. Gonzalez **Raymond Laureano-Ortiz**	229	A Case-Based Reasoning Approach to Real Estate Property Appraisal
Douglas Hillmer **Anita J. La Salle** **Larry Medsker** **Greg Welsh**	247	A Risk-Identification Tool for Managers Planning Expert System Applications
Ernest H. Forman	259	Determining Certainty Factors With the Analytic Hierarchy Process
